

## **Scrum 04-17**

- What have I worked on?

We collect all Rhode Island' data. Then we use tfidf to analyze NH's data and n-gram to analyze RI's data. We found in RI's data, the reversed cases is related to sexual and child. We also find some key words in RI's data, like firearm. Before using tfidf and n-gram, we cleaned the text, like removing some common features from the criminal cases and removing the stop words.

- What will I be working on next?

We will use tfidf to analyze RI's data and use n-gram to analyze NH's data. Also, We will collate all the data and analysis results and we will write a report to show a summary of what we have already done.

- Have I talked to the client recently? When are we meeting with them next?

We talked to the client on 04-17
