Mingyan Yang (U30215865)

Yujing Chen (U70567267)

Yicheng Li (U29503597)

1. What work has the team done toward the project this week?

This week we filter the secretary data and OCPF data with real estate keywords.

2. Is the team having any issues?

At the beginning it took us some time but finally we figured out how to filter our data. But we found it difficult to find the proper keywords. Some key words are ambiguous and some are distinct. Definitely, distinct ones can help us find real estate companies but ambiguous ones may bring us some companies that are not related to real estate. We have to select very carefully from our keyword dictionary.

3. What work does the team plan to do next week?

Next week, we will extract from OCPF all the relevant PACS and Real Estate.
