1. What work has the team done toward the project this week?

We have started scraping the real estate website. And we can successfully download PDFs from the website.

2. Is the team having any issues?

We still face the problem that the website may deny our requests.

3. What work does the team plan to do next week?

We will keep trying to solve the request problem. If solved, we will keep collecting PDFs from the website and extracting keywords from PDFs.
