Scrum-03-13

- What have I worked on?

  We have already extract Rhode Island's case in 2008-2018. According to case number, we select the criminal cases. Also, we classified the cases according to the keywords. It also distinguishes between the case of affirm and the case without affirm. By searching in Google, we found the NH's case can be classified by rsa number.

- What will I be working on next?

  The next goal is to extract NH's cases.

- Have I run into any issues? Do I need help?

  After extracting the data, we should find the relationship between informants and cases. We think we should ensure some features of the informants to put these features into our model, but now, we can't make sure these features.

- Have I talked to the client recently? When are we meeting with them next?

  We talked to the client on 03/06/2020
  We will have a zoom meeting on 03/20/2020
